

PRESS RELEASE

SOL Group continues its strategic investment path in the home care sector, where it operates through its VIVISOL companies, strengthening its presence in Poland.

Acquisition of 100% of the share capital of Wentimed, founded by Dr. Piotr Compala, specialized in home treatments of mechanical ventilation and palliative care.

SOL Group, a multinational company operating in the technical, industrial, and medical gases sector and in the home care sector under the **"VIVISOL"** brand, announces that it has strengthened its position in Poland with the acquisition of 100% of Wentimed.

Founded in 2014 by Dr. Piotr Compala, who has led its growth by fostering rapid and significant development, in 2025 Wentimed achieved a total turnover of more than PLN 40 million (over EUR 9 million) and currently employs more than 100 internal and external staff. Dr. Compala will continue to work in Wentimed alongside SOL for the transition phase.

The transaction confirms the SOL-VIVISOL Group's commitment to expand the offer of services on the Polish market, working in close synergy with the companies acquired in 2018 and already established in the country: Pallmed Sp.z.o., Medseven Sp. z o.o., and Medseven Care Sp. z o.o.

The integration of Wentimed makes it possible to significantly enhance and expand the historical therapeutic lines already provided by Pallmed Sp.z.o., particularly in the areas of mechanical ventilation (both home and stationary) and palliative care. At the same time, the acquisition enriches the overall offering by introducing new business lines dedicated to Polish patients, including:

- home rehabilitation;
- home nursing care;
- home oxygen therapy.

The new acquisition allows to create an integrated ecosystem of healthcare services, capable of offering complete 360-degree care, combining high technological specialization with continuity of care.

Alessandro Sala, Area Director for Poland, Romania and Germany Homecare & Pharma division, commented: *"We are thrilled about this acquisition of Wentimed, which purposefully consolidates and expands our presence in the Polish market. The combination of Wentimed's expertise with that of our existing local operations – starting with Pallmed Sp.z.o. – produces strong operating synergies and enables us to offer patients an increasingly integrated, continuous, and highly excellent home care pathway. Together with Dr. Piotr Compala and the entire team, we renew our daily commitment to improving the quality of life of the people we assist"*.

Dr. Piotr Compala, founder of Wentimed, commented: *"This transaction represents a very important milestone in the history of Wentimed. Joining forces with the SOL Group and VIVISOL strengthens our commitment to growth, innovation, and excellence in patient care. I am particularly happy to join a network with such experience and tradition, enhancing our expertise in respiratory and palliative care and accelerating the development of new home care areas"*.

Aldo Fumagalli Romario, Chairman and CEO of the SOL Group, commented: *"This acquisition will strengthen our presence in Poland, a dynamic country where we have already been operating for several years in the home care sector. We would like to thank Dr. Piotr Compala for the fruitful collaboration that led to the conclusion of this agreement. Working closely with the Wentimed team, I am confident that we will successfully develop new growth opportunities, benefiting from Vivisol's know-how, solidity, and international scale"*.
